

Zeus Patio Heater Carbon Fibre

Features

- Stunning contemporary slimline design - ideal for balconies
- Uses a standard 220 - 240V electric supply - no heavy gas cylinders to carry or refill. - just plug into a suitable 240V outdoor socket or a weatherproof PowerSpike lead.
- IPX5 weatherproof design. - a zipped cover is supplied for weatherproof protection.
- Powerful 40W CFL low energy light with four position adjustable head.
- Uses latest carbon fibre heating technology to produce 'far infrared heat' for a pleasant deep penetrating heat. This heats living bodies very efficiently & does not waste energy heating the air or inert surrounding objects.
- Effective heating area of up to 4 metres at 110 degree angle.
- No harmful fumes unlike most gas patio heaters.
- The chrome grille protects the elements and does not get dangerously hot to the touch.
- Instant heat with two heat settings - 1400W / 2800W. - the elements are replaceable & designed to last up to 10,000 hours
- Economy feature - will turn the heater off after 4 minutes if no-one is present.
- Safety tip-over & thermal cut-off devices.
- Substantial base with roller and grab handle for easy portability.
- Includes magnetic remote control that attaches to side of the unit.
- Coated with DuPont outdoor paint for long lasting protection.
